

Disposable EEG Cup Electrode Silver/Silver Chloride

Technomed understands the importance of clear signals, efficiency and ease of use.

Technomed's Disposable Ag/AgCl EEG Cup Electrode is designed to optimize EEG procedures to enable focusing on the patient and the EEG recording.

The electrode is designed with flexible wires and optimized connector for easy headbox insertion and extraction.

User Benefits

- No cleaning and preparation of EEG electrodes needed.
- Clear and reliable signal due to optimized layer of frequency stable Ag/AgCl .
- Short cup-to-cable connection to reduce lift risk.
- Optimized connector for easy headbox insertion and extraction.
- Optimized patient comfort with low profile disk, soft and flexible anti-tangle lead wires.
- Reduced risk of cross-contamination.
